

SUTTON GRAMMAR SCHOOL 11+ ADMISSION POLICY

The results from the Selective Eligibility Test will be carried forward and combined with the results from the second stage tests. Four standardized scores will be calculated using:

1. the multiple-choice items from the English paper on the Selective Eligibility Test
2. the multiple-choice items from the Mathematics paper on the Selective Eligibility Test
3. the English paper in the second stage test
4. the Mathematics paper in the second stage test

The four standardized scores will be weighted in the ratio 2:2:3:3, adjusted for age and deprivation (using the Income Deprivation Affecting Children Index – IDACI – score for a boy's home address), and the total rounded to the nearest four marks to give the final score.

Places will be offered in the following order:

1. Boys with Education, Health and Care Plans (EHCP) or Statements of Special Educational Needs who meet the School's Admission Standard and for whom Sutton Grammar School is the named school on their EHCP or statement.
2. Boys who are deemed to be 'looked after' or formerly looked after by a local authority.
3. 75 places by rank order of the scores in the selection tests where the home address of the boy is in one of the postcodes (SM1-7, KT4, KT17, CR0 4, CR4).
4. Up to 60 places (plus any remaining places in criterion 3 if the number of qualified boys in criterion 3 is less than the 75 on offer) by rank order of the scores in the selection tests, where the home address of the boy may be in any postcode.
5. The proximity of the boy's home address from the school (where scores are equal).
